

## All About the Lulav and Etrog: A social story for Sukkot

During the holiday of Sukkot, we might shake a lulav and etrog. This is a way to bring us closer to nature and to God.

There is a special way  
to shake the lulav  
and etrog. If I take a  
turn, someone might  
help show me how to  
do it.

[www.jkidaccess.org](http://www.jkidaccess.org)

I can try shaking it  
by myself or an adult  
can help me shake  
it.

It is also okay if I  
just want to watch  
someone else shake  
the lulav etrog.

Shaking the lulav and etrog might make noise. If I don't like the sound it makes, I can try covering my ears or using noise-cancelling headphones.

The etrog is a yellow fruit and might smell like a lemon. If I don't like the smell, I can choose not to smell or touch it.

Sukkot is a fun holiday. Shaking the lulav and etrog is a joyful way to celebrate.
